Dear Ms. Rick,

I would like to take this opportunity to express my strong support for the continuation of the National Dairy Promotion and Research Board.

The dairy producers of the US through the National Dairy Board have played a key role in promoting the dairy-- industry of this country through programs such as the 3-A Day, School Milk, crisis management, and others. In addition their support of cutting edge research in academia has allowed the US dairy industry to be very competitive around the world. Scholarships provided by the National Dairy Board for supporting the education of future dairy leaders are also clear testimony of the impact of this program on the dairy industry.

Clearly, the National Dairy Promotion and Research Board has played a key role for the growth and sustenance of the dairy industry. Please accept my support for its continuation.

Sincerely,

Vikram V. Mistry, Professor and Head

Dairy Science Department
