

PREFACE

Dairy Market News is a service provided by the U.S. Department of Agriculture (USDA) and cooperating State agencies under the authority of the Agricultural Marketing Act of 1946. The purpose is to provide dairy farmers and their cooperatives, processors, buyers and sellers of dairy products, and others with information which will help in making buying and selling decisions and future planning.

This is an annual summary of market statistics on dairy products collected and compiled by the Dairy Division of USDA's Agricultural Marketing Service (AMS), and published in "Dairy Market News," a weekly report. This annual summary contains data for 1999. Similar data have been published for the period 1940 through 1998.

In 1981, Congress passed the Agriculture and Food Act of 1981. Section 1121 of the Act authorized USDA to collect reasonable fees to cover the cost of postage, printing, and handling market news reports. A paid subscription system was initiated by AMS on August 1, 1982.

Issued April 2000

For sale by the U.S. Department of Agriculture, Agricultural Marketing Service,
Dairy Division, P.O. Box 8911, Madison, WI 53708-8911
Domestic - \$4.00; International \$6.00

"The United States Department of Agriculture (USDA) prohibits discrimination in its programs on the basis of race, color, national origin, sex, religion, age, disability, political beliefs and marital or familial status. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (braille, large print, audiotape, etc.) should contact the USDA Office of Communications at (202)720-5881 (voice) or (202)720-7808 (TDD).

To file a complaint, write the Secretary of Agriculture, U.S. Department of Agriculture, Washington, D.C., 20250, or call (202)720-7327 (voice) or (202)720-1127 (TDD). USDA is an equal employment opportunity employer."

SUMMARY OF DAIRY MARKET NEWS OPERATIONS DURING 1999

Dairy Market News covers markets for dairy products of commercial significance. These include butter, various kinds of cheese, concentrated and dry milk products, and fluid milk and cream. The kinds of market data gathered are determined by industry needs and by the willingness of industry members to voluntarily provide the necessary information. Market news reporters obtain information by telephone, Market News Telecommunications System, and mail. They use the telephone most extensively in reaching buyers and sellers across the country and around the world.

Dairy Market News also includes related information such as Commodity Credit Corporation purchases, sales, and inventories; invitations and contract awards on dairy products by USDA's Farmer Service Agency; import information; and USDA releases on milk and dairy product production, marketings, stocks, prices, and outlook and situation information. A list of the topics of some of the more important related information included in the weekly reports is contained on page 5.

Prices are reported for trucklot or carlot quantities (36,000 to 40,000 pounds); less than trucklot quantities; and tanklot quantities (49,000 pounds). Prices for most products are issued once a week and represent an average value for the entire week. In calculating the monthly average, the weekly price is applied to each workday in the week that is within the month (Saturdays, Sundays, and holidays excluded). This procedure is called time weighting. It is important for months having a split week because it gives the proper weight to the days in each month. No monthly average price is computed if one or more weekly prices are missing.

Monthly averages for prices reported more than once a week are simple averages of all prices reported during the month. Yearly averages are simple averages of the monthly average prices. No yearly average is computed if one or more monthly average prices are missing.

The monthly exchange averages are based on the exchange trading date prices and are time-weighted for each day, starting with the exchange trading date, until the next exchange trading date - Saturdays, Sundays, and National Holidays are included. However, the Chicago Mercantile Exchange (CME) started daily trading of cheese and NDM on September 1, 1998. From that point on, the CME monthly averages for those products are simple averages of all the closes during the month.

In addition to the printed report, Market News information is carried by news services and by newspapers, radio and television. Information also is available by telephone from Market News reporters. Some information is provided around the clock by recorded telephone messages (608-224-5088). Information is continually available on the Internet at: www.ams.usda.gov/dairy/mnncs/index.htm

Nonfat dry milk	204.0	185.1	232.5	197.2	818.8
Fluid milk products <u>4/</u>	13,972.8	13,613.0	13,847.8	14,241.2	55,674.8

1/ Commercial disappearance includes civilian and military purchases of milk and dairy products for domestic and foreign use, but excludes farm household use and USDA donations of dairy products. Totals may not add due to rounding. 2/ Milk-equivalent, milkfat basis. 3/ Commercial disappearance in product pounds. 4/ Sales. Estimate based on actual sales in Federal milk order marketing areas and California.

Far West	4,045	1.1	8,108	0.3	12,153	0.6

^{1/} These figures are representative of the consumption of fluid milk products in Federal milk order marketing areas and California, and represent approximately 89.0 percent of total fluid milk sales in the U.S.

^{2/} Whole milk products include plain, flavored and miscellaneous whole milk products.

^{3/} Fat-reduced milk products include plain, solids added, flavored, and miscellaneous fat-reduced milk products, and buttermilk.

^{4/} For marketing areas included in each region, see table 34. Northeast is North Atlantic; Midwest is East North Central and West North Central combined; Southwest is West South Central; and Far West is Mountain and Pacific combined. The Midwest region excludes Nebraska-Western Iowa. California is included in the Far West Region.

^{5/} Percent changes are based on sales figures adjusted for calendar composition.

^{6/} Total may not add due to rounding.

*Data not available. 1/ End of year. (Date on which pricing provisions became effective.) 2/ End of year. 1955, 1960-70, 1980, and 1990 according to 1950, 1960, 1980, and 1990 U.S. census, respectively. 1975-1979, 1981-1989, and 1991 to date are estimated. 3/ Average for year. 4/ Prices are simple averages for 1947-60 and weighted averages for 1965 to date. 5/ Due to disadvantageous price situations in some markets, handlers elected not to pool an estimated 13.9 billion and 16.0 billion pounds, in 1999 and 1998, respectively, that normally would have been pooled under these orders. These price situations occur when the blend price adjusted for location is equal to or less than the Class II, Class III, or Class III-A price. In these situations, handlers may elect not to pool milk that normally would have been associated with the order. Handlers also may elect not to pool milk when it is more advantageous to associate the milk with a State milk order or when the Class III price is too high relative to the pricing programs used to pay dairy farmers.

Table 34--Minimum Federal order and announced cooperative Class I prices in selected cities, 1999 ^{1/}

City	Annual Average			City	Annual Average		
	Federal order price	Cooperative price	Difference		Federal order price	Cooperative Price	Difference

Milwaukee, WI	14.97	16.85	1.88				
Minneapolis, MN	14.86	15.98	1.12				

^{1/} These figures are simple averages of monthly prices. The cooperative price represents Class I prices announced for the beginning of the month by cooperative associations in various city markets. These prices, generally, are higher than the respective Federal order minimum price. The information relates to the major cooperative in each of the city markets and does not apply to all of the Class I sales in these city markets. These data are common market knowledge in the sense that the information represents basic Class I price announcements by the cooperative sent to all handlers who buy milk from them. These announced over-order prices represent charges for various services performed by the cooperative. Announced prices may not include handling or service charges applicable to milk from supply plants. In some instances, the announced over-order prices are not uniform in that competitive credits may be allowed. These prices have not been verified as having been actually paid by handlers. ^{2/} Data does not include the impact of prices established under the Northeast Dairy Compact.

1/ Prices are for milk of 3.5 percent butterfat content and for the major city in the marketing area. All averages are weighted. 2/ Due to disadvantageous pricing situations in 1998, handlers elected not to pool milk that normally would have been associated with the market. 3/ Due to disadvantageous pricing situations in 1999, handlers elected not to pool milk that normally would have been associated with the market. 4/ The price data are for Tampa Bay; the remaining data are for the Tampa Bay, Upper Florida, and Southeastern Florida marketing areas which have been combined in order to mask restricted data. 5/ Price averages exclude, where applicable; Upper Florida, Southeastern Florida, Eastern South Dakota, and Western Colorado. Some of the data used to weight the monthly prices are restricted. 6/ The price data are for Greater Kansas City; the remaining data are for the Greater Kansas City and Eastern South Dakota marketing areas which have been combined in order to mask restricted data. 7/ Class I receipts and utilization data for the Greater Kansas City-Eastern South Dakota area for the entire 1998-99 period were restricted. 8/ Figures exclude Class I price data for Greater Kansas City and Class I receipts and utilization data for Greater Kansas City-Eastern South Dakota; see 7/. 9/ The price data are for Eastern Colorado; the remaining data are for the Eastern Colorado and Western Colorado marketing areas which have been combined in order to mask restricted data. 10/ The total estimated volume of milk not pooled due to disadvantageous pricing situations was 13.8 billion pounds in 1999, and 16.0 billion pounds in 1998.

^{1/} Based on prices at test as reported in "Agricultural Prices," NASS; converted to a 3.5 percent butterfat test by using the butterfat differential specified in Federal milk orders. ^{2/} The Basic Formula Price (BFP) is the base (prior) month Minnesota-Wisconsin manufacturing grade milk price, as reported by NASS, updated to the current month by a product price formula. The BFP establishes most minimum class prices under Federal milk orders.

1/ Animals sold for dairy herd replacement only. 2/ Figures are published for January, April, July, and October only. 3/ Mid-month price. 4/ Includes beef cows and cull dairy cows sold for slaughter, but not dairy cows for herd replacement. 5/ Pounds of 16 percent mixed dairy feed equal in value to 1 pound of milk sold to plants. The methodology utilizes major raw feed component prices from the NASS agricultural commodity prices published monthly.

1/ Federal milk orders for which the data can be released. 2/ Net pay price received by dairy farmers marketing milk to handlers regulated under the Federal milk orders. Includes all payments received for milk sold and all costs associated with marketing the milk. Price is reported at the market average butterfat test. 3/ Weighted average of the information for the orders listed in the region or for all selected orders combined. 4/ Weighted average of the information for the Upper Florida, Tampa Bay, and Southeastern Florida orders. 5/ May include payments for milk that, while normally associated with the market, was not pooled due to disadvantageous price relationships.

DAIRY MARKET NEWS TERMINOLOGY

Over the years, those engaged in the marketing of dairy products have developed a language peculiar to the trade. Numerous terms and phrases having special meanings are in frequent use. Market reports are intended to convey useful information to readers regarding important phases of a market situation and are best understood by the trade if words and expressions employed are in common usage. The following terms, definitions and abbreviations are used in describing dairy markets and market situations.

AMS - Agricultural Marketing Service: An agency of the U.S. Department of Agriculture. This Agency's responsibilities include administering marketing order programs, standardization, inspection and grading, market news, and the research and promotion programs.

BASIC FORMULA PRICE - BFP: The base month Minnesota-Wisconsin price updated with a butter/powder/cheese formula which establishes minimum prices for milk under all Federal milk orders. Replaced historic M-W milk price series in May 1995. Discontinued January 2000.

BULK BUTTER - Packed 68 pounds or 25 KG, net weight, in corrugated boxes.

BUTTERFAT / MILKFAT - The fat portion of whole milk.

CCC - Commodity Credit Corporation: An agency of the U.S. Department of Agriculture. This Agency's responsibilities include conducting price support purchases and related activities, involving expenditures of funds under powers granted by the Congress to CCC. The Secretary of Agriculture and other Department officials serve as officers of the Corporation.

ADJUSTED PURCHASES - Total purchases, contract basis, less/plus contract adjustments.

FISCAL/MARKETING YEAR - October 1 through September 30.

MANUFACTURING ALLOWANCES - CCC's estimate of the average amount per hundredweight needed by plants to cover manufacturing costs (fuel, labor, equipment, packaging, etc.) to convert whole milk into cheese or butter and nonfat dry milk. This allowance is used in determining the CCC purchase price which will enable manufacturers to return to the dairy farmers, on a national average basis, the Government support price.

MILK EQUIVALENT - The equivalent pounds of whole milk containing a specific percentage of milkfat--usually 3.67 percent--used in the production of manufactured dairy products. One method for computing milk equivalent is to multiply the volume of specific manufactured dairy products by a conversion factor derived from the yield of the product from a hundredweight of milk at the specified milkfat percent. CCC does not guarantee that farmers will receive that price.

FAT SOLIDS BASIS: factors used: butter, 21.8; cheese, 9.23; and nonfat dry milk, 0.22.

SKIM SOLIDS BASIS: factors used: butter, 0.12; cheese, 9.9; and nonfat dry milk, 11.64.

NET PURCHASES / REMOVALS - referred to interchangeably as CCC, USDA, or Government removals or net purchases. Surplus milk bought by the CCC in the form of butter, cheese, and nonfat dry milk, less sales to the trade for unrestricted use.

PURCHASE PRICES - Announced prices that CCC pays under the price support program for butter, cheese and nonfat dry milk.

REGIONS - East, Midwest, and West. The regions consist of the following states:

EAST - Connecticut, Delaware, Florida, Georgia, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, North Carolina, Pennsylvania, Rhode Island, South Carolina, Vermont, Virginia, and West Virginia.

MIDWEST - Alabama, Arkansas, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Michigan, Minnesota, Mississippi, Missouri, Nebraska, North Dakota, Ohio, Oklahoma, South Dakota, Tennessee, Texas, and Wisconsin.

WEST - Arizona, California, Colorado, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington, and Wyoming.

SELLBACK PRICES - The prices determined by CCC at which the government will sell dairy products back to the trade.

RESTRICTED USE - Sales of CCC commodities restricted to a specific use, such as animal feed.

UNRESTRICTED USE - Sales of CCC commodities that may be used for any purpose. These sales are made at both announced and competitive prices.

SUPPORT PRICE FOR MILK - The price set by the Secretary of Agriculture (since October 21, 1981, the support price has been established by Congress) which is in compliance with the requirements of the Agricultural Act of 1949, as amended, for the milk price support program. The support price is a price goal - a national average price for milk of national average milkfat content that USDA hopes to see realized in the marketplace. CCC purchase prices are calculated to provide to milk processors who buy manufacturing grade milk, sufficient revenue to pay producers the support price. CCC does not guarantee that farmers will receive that price.

UNCOMMITTED INVENTORIES - Stocks held by CCC which have not been committed for sale or donation.

DAIRY MARKET NEWS TERMINOLOGY

CIF - Cost, Insurance, and Freight.

COLD STORAGE HOLDINGS - Products normally held for 30 days or more in public, private, and semiprivate refrigerated storage facilities. Does not include products in wholesalers' and retailers' storage facilities which normally hold products less than 30 days.

COMMERCIAL DISAPPEARANCE - Commercial disappearance includes civilian and military purchases of milk and dairy products for domestic and foreign use, but excludes farm household use and USDA donations of dairy products. Disappearance is a residual figure and therefore can be affected by any inaccuracies in estimating milk production, on-farm use, stocks, and imports.

COMMERCIAL STOCKS - Total U.S. stocks or holdings, minus Government-owned stocks or holdings.

CONTRACT SALES - Contract sales (oral or written) include product that is earmarked for a regular established outlet. The contract may cover a specified period of time or volume. The price may be fixed or based on negotiated differentials over or under some base price or index.

DAIRY MARKET NEWS - DMN - collects and provides timely and accurate information pertaining to supply and demand conditions for milk and dairy products. Provide the industry information to help make current buying and selling decisions and aid in future planning.

DMN REGIONS:

DOMESTIC:

CENTRAL - Arkansas, Illinois, Indiana, Iowa, Kansas, Louisiana, Michigan, Minnesota, Missouri, Nebraska, North Dakota, Ohio, Oklahoma, South Dakota, Texas, and Wisconsin

NORTHEAST - Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, and Vermont

SOUTHEAST - Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina, Tennessee, Virginia, and West Virginia

WEST - Arizona, California, Colorado, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington, and Wyoming

INTERNATIONAL:

EASTERN EUROPE - Belarus, Bulgaria, Czechoslovakia, Hungary, Latvia, Lithuania, Poland, Romania, Slovakia, and Ukraine

OCEANIA - Australia and New Zealand

WESTERN EUROPE (EU-15) - Austria, Belgium, Denmark, Finland, France, Germany, Ireland, Italy, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland, and United Kingdom

DEIP - Dairy Export Incentive Program: A program administered by USDA, FAS, which helps exporters of U.S. dairy products compete on the world market.

DELIVERED EQUIVALENT - Prices are derived by using an f.o.b. price, plus an adjustment to reflect the cost of transporting the product to a specified area.

DELIVERED PRICE - f.o.b. price plus transportation and handling.

DEMAND - The desire to possess a commodity, coupled with the willingness and ability to pay.

ERS - Economic Research Service: An agency of the U.S. Department of Agriculture. This Agency's responsibilities include providing economic research and forecasting.

EX DOCK - Often seen as "Ex Doc, Duty Paid." Imported product that has cleared customs and all paperwork has been completed. Product is available for pickup by the buyer.

DAIRY MARKET NEWS TERMINOLOGY

EXCHANGE - An organization which establishes and enforces rules of trade in a market (cash markets). Terms used by DMN which are associated with Exchange trading.

BID - Refers to the price a buyer is willing to pay for a product. May raise the trading level.

CARLOAD - National Cheese Exchange and Chicago Mercantile Exchange = 40,000 - 44,000 pounds

CARLOT - Chicago Mercantile Exchange - butter = 40,000 - 42,000 pounds

OFFER - Refers to the price an owner is willing to accept for a product. May lower the trading level.

SALE - A bid filled or an offer covered.

FAS - Foreign Agricultural Service: An agency of the U.S. Department of Agriculture. This Agency's responsibilities include providing foreign agricultural information, administering import regulations, and assisting in the export of U.S. farm products.

FEDERAL MILK ORDERS - Federal Milk orders are authorized by the Agricultural Marketing Agreement Act of 1937. Under this law, the Secretary of Agriculture may establish Federal Orders that apply to buyers (handlers) of milk. Basically, a milk order is a legal document issued to regulate the minimum prices paid to dairy farmers by handlers of Grade A milk in a specified marketing area.

FDA - Food and Drug Administration: An agency of the U.S. Department of Health and Human Services.

FLUID GRADE MILK (GRADE A) - Milk eligible for sale for use in fluid milk products. This milk must be produced under strict sanitary conditions which meet state and local standards. Fluid grade milk may be used to make manufactured dairy products.

F.O.B. - Free on Board: Seller places product sold in a railcar, truck, or other form of transportation. The buyer then assumes transportation costs.

FSA - Farm Service Agency (formerly ASCS): An agency of the U.S. Department of Agriculture. This Agency's responsibilities include administering the dairy and other farm commodity price support programs.

FUTURES TERMS - several common terms used by traders in futures markets.

CHICAGO MERCANTILE EXCHANGE - CME

COFFEE, SUGAR, AND COCOA EXCHANGE - CSCE - located in New York.

CFTC - The Commodity Futures Trading Commission as created by the Commodity Futures Trading Commission Act of 1974. This government agency currently regulates the nations's commodity futures industry.

CONTRACT - Unit of trading for a commodity future. Also, actual bilateral agreement between the parties (buyer and seller) of a futures or option on futures transaction as defined by an exchange.

CONTRACT MONTH - The month in which futures contracts may be satisfied by making or accepting delivery.

DELIVERY - The tender and receipt of an actual commodity or cash in settlement of a futures contract.

LONG - One who has bought a futures or options on futures contract to establish a market position through an offsetting sale; the opposite of short.

OPEN INTEREST - Total number of futures or options on futures contracts that have not yet been offset or fulfilled by delivery. An indicator of the depth or liquidity of a market (the ability to buy or sell at or near a given price) and of the use of a market for risk and/or asset-management.

SETTLEMENT PRICE - A figure determined by the closing range that is used to calculate gains and losses in futures market accounts. Settlement prices are used to determine gains, losses, margin calls, and invoice prices for deliveries.

VOLUME - The number of transactions in a futures or options on futures contract made during a specified period of time.

LTL - Less than truckload quantity.

MANUFACTURING GRADE MILK (GRADE B) - Milk eligible for sale for which use is limited to manufactured dairy products. This milk must be produced under conditions which meet state and local standards, but these standards are less stringent than those for fluid grade milk.

DAIRY MARKET NEWS TERMINOLOGY

MARKET - A term with several meanings:

- A. A geographic location where a commodity is traded.
- B. The price, or price level, at which a commodity is traded.
- C. To sell a commodity.

MARKET ACTIVITY - The rate at which sales are being made. Often stated as: active, moderate, slow, or inactive.

MARKET CHANNELS:

BROKER/TRADER - A middleman activity involved in facilitating sales between producers and other levels in the marketing chain. Typically does not take title to product.

FOOD SERVICE - A marketing channel which includes purchases of dairy products by hotels, restaurants, fast food outlets, schools, and institutions.

INDUSTRIAL - A marketing channel which includes dairy products purchased as an ingredient in the production of food and nonfood products.

JOBBER - A middleman activity in food distribution involving the transfer of products between wholesalers or manufacturers and end use outlets. Jobbing sales are usually on a small scale and jobbers provide special services to small food stores, restaurants, and institutions. Typically takes title to product.

RETAIL - A marketing channel which sells dairy products directly to the consumer for personal or household consumption.

WHOLESALE - A middle link in the food distribution chain. Wholesalers assemble relatively large quantities of product and resell in smaller lots to various users such as the food service trade, small retail food stores, and jobbers. Major functions may include assembling, grading, warehousing, order taking, cutting, wrapping, printing, and delivery. Customer services such as merchandising aids and credit also may be provided.

METRIC CONVERSIONS:

KG / KILOGRAM = approximately 2.2 pounds

MT / METRIC TON = approximately 2,204.6 pounds

MIDWEST COMMODITY CHEDDAR - The series is based on the spot trading information from several major buyers and/or producers of cheese in the Midwest. Selling prices are for trucklot quantities of Cheddar cheese, f.o.b. the seller's plant or warehouse. Prices are for product assumed to be of USDA Grade A or Extra Grade quality or equivalent Wisconsin State Brand. Prices do not include adjustments for moisture content.

MOSTLY - The majority of sales within a reported price range. Transaction driven not volume weighted

NA - Not available.

NASS - National Agricultural Statistics Service: An agency of the U.S. Department of Agriculture. This Agency's responsibilities include providing official USDA data and estimates of agricultural prices, dairy products, milk production, cold storage, and other items.

NC - No change.

NDM - Nonfat Dry Milk - also SMP.

NOMINAL PRICES - Prices that reflect buyers' and sellers' opinions of current values (bids, offers, grade, and regional differentials, etc.) when there is limited trading of a commodity. Ordinarily, published prices are based on three or more separate, actual spot transactions. However, because of the practical uses made of pricing information by buyers and sellers, nominal prices are used to indicate where spot trades would occur. If a reporter is unable to gather enough information for nominal prices, then prices are reported as too few to report (TFEWR).

PRINT BUTTER - Butter which is packaged in one-pound or smaller pieces.

RAILCAR = approximately 130,000 to 160,000 pounds

DAIRY MARKET NEWS TERMINOLOGY

RESALE PRICES - Transactions that reflect product that has been purchased and resold (can be more than once). Trades can occur above, below, or at spot prices depending on current market conditions. These trades are not reported in spot price ranges but may be included in comments.

SOLIDS-NOT-FAT (SNF) - The solids in milk other than milkfat.

SPOT PRICES - The first sale, f.o.b. the producing plant, of product that has no regular or committed outlet and is sold on the open market for immediate delivery or delivery within a few days. Sales to CCC under the price support program are included with spot trades.

SUPPLY/OFFERING - The quantity of a particular item available for current sale. Often stated as: excessive, ample, adequate, moderate, light, or limited.

TFEWR - Too few to report - insufficient market information to determine a price.

TL - Truckload = approximately 40,000 - 44,000 pounds

UNDERTONE/TONE - Situation or sense of market direction.

USPHS - United States Public Health Service: An agency of the U.S. Department of Health and Human Services. This agency's responsibilities include the promulgation and administration of Federal standards of identity (which define milk and dairy products) and administering the fluid Grade A milk program (which covers the sanitary aspects of milk and processing).

WET SOLIDS - another term for condensed skim.

1/ Prices for all products are issued once a week and represent a value for the entire week. Monthly averages are based on weekly prices and are time-weighted according to the number of workdays in the month - Saturdays, Sundays and National Holidays excluded. No monthly average is computed if one or more weekly prices are missing. 2/ For use in Federal milk orders, OME butter averages were computed in three different ways in 1999. January and February averages were calculated using the weekly (Friday) close, time weighted for the following week. On March 8, 1999, the OME started multi day butter trading. The March average was computed based on two Friday closes time weighted for the following week, combined with the new weekly averages time weighted for the following week. Starting in April, the weekly averages were time weighted for the following week in computation of monthly averages. Details of average calculations starting in March can be found in Dairy Market News, Volume 66, Report 11, page 11. However, the OME monthly averages for NDM and cheese are simple averages of all the closes during the month.

* Monthly averages are a simple average of all the closes during the month. Weekly and monthly averages are independent calculations.

** Weekly averages are simple averages of the closes during the calendar week and are for information purposes. Should the week be split between two months, the weekly average will appear in the monthly report in which the Friday close is reported.

Holiday, CME cash dairy markets closed.

* Monthly averages are a simple average of all the closes during the month. Weekly and monthly averages are independent calculations.

** Weekly averages are simple averages of the closes during the calendar week and are for information purposes. Should the week be split between two months, the weekly average will appear in the monthly report in which the Friday close is reported.

BUTTER

WHOLESALE SELLING DIFFERENTIALS, F.O.B. - BULK - TRUCKLOAD QUANTITIES

Due to a lack of consensus on the part of producers and buyers about the basing point for bulk butter sales, (previous Friday's close, previous week's average, date of sale, date of shipment, etc), Dairy Market News is temporarily suspending the reporting of premiums or discounts.

* Monthly averages are a simple average of all the closes during the month. Weekly and monthly averages are independent calculations.

** Weekly averages are simple averages of the closes during the calendar week and are for information purposes. Should the week be split between two months, the weekly average will appear in the monthly report in which the Friday close is reported.

No monthly average calculated to avoid confusion with the average used by Federal orders.

@ Because the CME was closed on April 2, a weekly average for butter was calculated for this report.

BUTTER

WHOLESALE SELLING DIFFERENTIALS, F.O.B. - BULK - TRUCKLOAD QUANTITIES

Due to a lack of consensus on the part of producers and buyers about the basing point for bulk butter sales, (previous Friday's close, previous week's average, date of sale, date of shipment, etc), Dairy Market News is temporarily suspending the reporting of premiums or discounts.

* Monthly averages are a simple average of all the closes during the month. Weekly and monthly averages are independent calculations.

** Weekly averages are simple averages of the closes during the calendar week and are for information purposes. Should the week be split between two months, the weekly average will appear in the monthly report in which the last close of the week is reported.

@ The CME was closed for Good Friday.

& Per footnote **, this weekly average was reported in Volume 66, Report 13.

No monthly average calculated to avoid confusion with the average used by Federal orders.

BUTTER

WHOLESALE SELLING DIFFERENTIALS, F.O.B. - BULK - TRUCKLOAD QUANTITIES

Due to a lack of consensus on the part of producers and buyers about the basing point for bulk butter sales, (previous Friday's close, previous week's average, date of sale, date of shipment, etc), Dairy Market News is temporarily suspending the reporting of premiums or discounts.

* Monthly averages are a simple average of all the closes during the month. Weekly and monthly averages are independent calculations.

** Weekly averages are simple averages of the closes during the calendar week and are for information purposes. Should the week be split between two months, the weekly average will appear in the monthly report in which the Friday close is reported.

No monthly average calculated to avoid confusion with the average used by Federal orders.

BUTTER

WHOLESALE SELLING DIFFERENTIALS, F.O.B. - BULK - TRUCKLOAD QUANTITIES

Due to a lack of consensus on the part of producers and buyers about the basing point for bulk butter sales, (previous Friday's close, previous week's average, date of sale, date of shipment, etc), Dairy Market News is temporarily suspending the reporting of premiums or discounts.

* Monthly averages are a simple average of all the closes during the month. Weekly and monthly averages are independent calculations.

** Weekly averages are simple averages of the closes during the calendar week and are for information purposes. Should the week be split between two months, the weekly average will appear in the monthly report in which the Friday close is reported.

No monthly average calculated to avoid confusion with the average used in Federal orders.

MONTHLY SUMMARY AND AVERAGES FOR JULY 1999 1/ - (UNLESS OTHERWISE NOTED, PRICES ARE DOLLARS PER POUND, CL/TL)

BUTTER

WHOLESALE SELLING DIFFERENTIALS, F.O.B. - BULK - TRUCKLOAD QUANTITIES

Due to a lack of consensus on the part of producers and buyers about the basing point for bulk butter sales, (previous Friday's close, previous week's average, date of sale, date of shipment, etc), Dairy Market News is temporarily suspending the reporting of premiums or discounts.

* Monthly averages are a simple average of all the closes during the month. Weekly and monthly averages are independent calculations.

** Weekly averages are simple averages of the closes during the calendar week and are for information purposes. Should the week be split between two months, the weekly average will appear in the monthly report in which the Friday close is reported.

No monthly average calculated to avoid confusion with the average used by Federal orders.

July 4th observed, the CME was closed.

BUTTER

WHOLESALE SELLING DIFFERENTIALS, F.O.B. - BULK - TRUCKLOAD QUANTITIES

Due to a lack of consensus on the part of producers and buyers about the basing point for bulk butter sales, (previous Friday's close, previous week's average, date of sale, date of shipment, etc.), Dairy Market News is temporarily suspending the reporting of premiums or discounts.

* Monthly averages are a simple average of all the closes during the month. Weekly and monthly averages are independent calculations.

** Weekly averages are simple averages of the closes during the calendar week and are for information purposes. Should the week be split between two months, the weekly average will appear in the monthly report in which the Friday close is reported.

No monthly average calculated to avoid confusion with the average used by Federal orders.

BUTTER

WHOLESALE SELLING DIFFERENTIALS, F.O.B. - BULK - TRUCKLOAD QUANTITIES

Due to a lack of consensus on the part of producers and buyers about the basing point for bulk butter sales, (previous Friday's close, previous week's average, date of sale, date of shipment, etc), Dairy Market News is temporarily suspending the reporting of premiums or discounts.

* Monthly averages are a simple average of all the closes during the month. Weekly and monthly averages are independent calculations.

** Weekly averages are simple averages of the closes during the calendar week and are for information purposes. Should the week be split between two months, the weekly average will appear in the monthly report in which the Friday close is reported.

ONE closed for observance of Labor Day.

No monthly average calculated to avoid confusion with the average used by Federal orders.

BUTTER

WHOLESALE SELLING DIFFERENTIALS, F.O.B. - BULK - TRUCKLOAD QUANTITIES

Due to a lack of consensus on the part of producers and buyers about the basing point for bulk butter sales, (previous Friday's close, previous week's average, date of sale, date of shipment, etc), Dairy Market News is temporarily suspending the reporting of premiums or discounts.

* Monthly averages are a simple average of all the closes during the month. Weekly and monthly averages are independent calculations.
 ** Weekly averages are simple averages of the closes during the calendar week and are for information purposes. Should the week be split between two months, the weekly average will appear in the monthly report in which the Friday close is reported.
 # No monthly average calculated to avoid confusion with the average used by Federal orders.

BUTTER

WHOLESALE SELLING DIFFERENTIALS, F.O.B. - BULK - TRUCKLOAD QUANTITIES

Due to a lack of consensus on the part of producers and buyers about the basing point for bulk butter sales, (previous Friday's close, previous week's average, date of sale, date of shipment, etc), Dairy Market News is temporarily suspending the reporting of premiums or discounts.

* Monthly averages are a simple average of all the closes during the month. Weekly and monthly averages are independent calculations.
 ** Weekly averages are simple averages of the closes during the calendar week and are for information purposes. Should the week be split between two months, the weekly average will appear in the monthly report in which the Friday close is reported.
 # ONE closed.
 ## No monthly average calculated to avoid confusion with the average used by Federal orders.

BUTTER

WHOLESALE SELLING DIFFERENTIALS, F.O.B. - BULK - TRUCKLOAD QUANTITIES

Due to a lack of consensus on the part of producers and buyers about the basing point for bulk butter sales, (previous Friday's close, previous week's average, date of sale, date of shipment, etc), Dairy Market News is temporarily suspending the reporting of premiums or discounts.

1/ Prices for all products are issued once a week and represent a value for the entire week. Monthly averages are based on weekly prices and are time-weighted according to the number of workdays in the month - Saturdays, Sundays and National Holidays excluded. No monthly average is computed if one or more weekly prices are missing. 2/ For use in Federal milk orders, CME butter averages were computed in three different ways in 1999. January and February averages were calculated using the weekly (Friday) close, time weighted for the following week. On March 8, 1999, the CME started multi day butter trading. The March average was computed based on two Friday closes time weighted for the following week, combined with the new weekly averages time weighted for the following week. Starting in April, the weekly averages were time weighted for the following week in computation of monthly averages. Details of average calculations starting in March can be found in Dairy Market News, Volume 66, Report 11, page 11. However, the CME monthly averages for NDM and cheese are simple averages of all the closes during the month.

* Monthly averages are a simple average of all the closes during the month. Weekly and monthly averages are independent calculations.

** Weekly averages are simple averages of the closes during the calendar week and are for information purposes. Should the week be split between two months, the weekly average will appear in the monthly report in which the Friday close is reported.

OME closed.

No monthly average calculated to avoid confusion with the average used by Federal orders.
