1/ Annual information is available for Appalachian, Southeast, Florida, Mideast, Upper Midwest, Central, and Pacific Northwest Federal milk order marketings areas.

2/ Over-order charge spread over 100 percent of the producer milk used in Class I. Includes milk for which there was no over-order charge.

3/ Minimum and maximum over-order charge during the year on any volume of Class I milk.

4/ Annual average is the weighted average of the monthly figures.

5/ Monthly charge is the weighted average of all the charges for the month.

6/ Monthly data for Southeast was revised for May through December 2007.

7/ Figures are weighted averages of individual marketing area data.

1/ Annual information is available for Appalachian, Southeast, Florida, Mideast, Upper Midwest, Central, and Pacific Northwest Federal milk order marketings areas.

2/ The choice of handlers to not pool milk due to disadvantageous class and uniform price relationships may result in this statistic being larger than if all the milk had been pooled.

3/ Over-order charges spread over 100 percent of the producer milk used in Class II. Includes milk for which there was no over-order charge.

4/ Minimum and maximum over-order charge during the year on any volume of Class II milk.

5/ Annual average is the weighted average of the monthly figures.

6/ Monthly charge is the weighted average of all the charges for the month.

7/ Monthly data for Southeast was revised for May through December 2007.

8/ Figures are weighted averages of individual marketing area data.

1/ Annual information is available for Appalachian, Southeast, Florida, Mideast, Upper Midwest, Central, and Pacific Northwest Federal milk order marketing areas.

2/ In some marketing areas, a large portion of the milk used in Class III is processed in cooperative-owned plants and thus carries no over-order charge.

3/ The choice of handlers to not pool milk due to disadvantageous class and uniform price relationships may result in this statistic being larger than if all the milk had been pooled.

4/ Over-order charge spread over 100 percent of the producer milk used in Class III. Includes milk for which there was no over-order charge.

5/ Minimum and maximum over-order charge during the year on any volume of Class III milk.

6/ Annual average is the weighted average of the monthly figures.

7/ Monthly charge is the weighted average of all the charges for the month.

8/ Monthly data for Southeast was revised for May through December 2007.

9/ Less than 0.1 percent.

10/ Figures are weighted averages of individual marketing area data.
