

10-6-09

I am Lloyd Schrock and I as well as several of my family are produce growers in the Bluegrass region of Central Kentucky. I am also chairman of the board for the Lincoln Co. Produce Auction which serves about 200 small and medium size produce growers in Lincoln and surrounding counties.

Our concern is that the food safety guidelines proposed by the California Leafy Greens Agreement would seriously hinder the livelihood of many of our growers.

We do have a real concern about food safety and would like to see and support a set of guidelines tailored to fit the needs of our area and situation.

We are one of the produce auctions mentioned by Raymond Yoder and would support the guidelines he has presented.
