Poultry Market Statistics 2004 Summary

ISSN 0565-1980

Federal-State Market News

The U.S. Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, gender, religion, age, disability, political beliefs, sexual orientation, and marital or family status. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotape, etc.) should contact USDA's TARGET Center at (202) 720-2600 (Voice and TDD).

To file a complaint of discrimination, write USDA, Director, Office of Civil Rights, Room 326-W, Whitten Building, 14th and Independence Avenue, SW, Washington, DC 20250-9410 or call (202) 720-5964 (Voice or TDD). USDA is an equal opportunity provider and employer.

POULTRY MARKET STATISTICS

2004

Definition of Terms

An average price is computed by dividing the sum of the midpoints of price ranges reported during the period by the number of price ranges during the period.

A weighted average price is computed by dividing the total value of the sales during the period by the total number of units sold during the period.

A yearly average price is the mean of the 12 monthly averages, unless otherwise noted.

A monthly average price is not computed when a price is not reported for 5 or more consecutive trading days.

A yearly average price may not be computed when an average price is not reported for 1 or more months. Where appropriate, a yearly price may be computed when the volumes associated with all reported prices can be determined; in which case, a yearly weighted average may be reported.

Matched plant comparisons are made by comparing information from the same sources reporting in each of two different periods, e.g., current and previous week or current and previous year.

1/ The composite regions are: Boston, Chicago, Denver, Detroit, Los Angeles, New York, Ohio Cities, Philadelphia, Pittsburgh, St. Louis, and San Francisco.

2/ The composite weighted average price is computed by dividing the country into 3 marketing regions and weighting prices in each region by the population of the region. Composite prices include U.S. Grade A (including branded) and Plant Grade ice-packed, whole-car cass chill pack product and whole birds without giblets (WOGS).

Composite Weighted Average Price
 Broiler-Fryers-2001-2004
