- **Peer Review Proposal** - The draft proposal was circulated prior to the call and the group discussed it before proceeding to a vote. The members were very supportive of the document overall. Three topics that the group explored further involved: 1) The potential for conflicts of interest if current Board members were to sit on the peer review panel; 2) The addition of language in support of the findings by the OIG of using an independent third party assessment body rather than a FACA panel as the auditor; and 3) The role of the NOSB post-review.

Motion to accept the Peer Review Proposal as amended

Motion by: JFo

Seconded by: JR

Discussion: No additional discussion except to note that the lead reviewer resent the amended version to the members during the call and before they voted.

**Agenda**

- Approve notes of January 13, 2015
- Discuss changing name of CACS to include ‘International Equivalency’
- Discuss the possibility of eliminating the “100% organic” category
- Discuss/vote Draft Soil Conservation Practices Assessment Proposal (CBo)
- Adjourn

**Discussion**

- **The notes from** January 13, 2015 were approved with no changes.
- **Draft Soil Conservation Practices Assessment** - Several Board members met with NRCS staff while in DC last week for training and discussed various ways in which the NOSB, NOP, and NRCS overlap and can work more efficiently. Topics included: The NRCS CAP 138 program (Conservation Activity Plan) which offers support for farms in transition to organic. The group also discussed training and ways to perhaps coordinate resources of the NRCS and NOP.. Based on these conversations and input from NOP, the CACS will delay the proposal on Soil Conservation Practices Assessment to the fall 2015 meeting in an effort to add more specificity. LD will reach out to NRCS to learn more about their available tools.
- **Discuss changing name of CACS to include “International Equivalency”** - The NOSB chair suggested that the name of the CACS be changed to reflect the fact that the NOSB

Subcommittees always review and consider materials in light of international activities. Members discussed the pros and cons of doing this. The NOP will discuss this further and let the CACS know. JR will write an email to the Deputy Administrator proposing the name change.

- **Discuss the “100% organic” category** - Members discussed the idea of requesting an addition to the work agenda about the 100% organic label, to seek public comment. Several members indicated that based on feedback from many segments of the organic community, the label claim of 100% organic is confusing. One member noted that it is not used outside of the US. The NOP added that it was not part of OFPA, but that it was originally added by USDA AMS Administrator Merrigan in response to a segment of the community opposed to the inclusion of any synthetics in processing. The CACS will develop a request and submit it to the NOP Deputy Administrator for consideration as a work agenda item for 2016.
- **The meeting was adjourned**

- The Chair asked about the status of the 100% organic topic that was posed as a possible work agenda item. The topic was deferred until the Sunset review is completed.
