To pull up a different commodity report, repeat the above steps.

Website Posting of Companies with Acceptable Audits

C. For the <u>list by Companies</u>:

This is what you will see when you visit this site.

In the box marked "Enter part of the company name:" type in part of the name for the company that you are searching for. For example, if you are searching for an audit of the Cherry Lake Farm, enter "Cherry". Then hit the Enter key, left click on the down arrow by the box marked "Company", select Cherry Lake Farm, and click on "View Report".

You will then have a list of all audits, by audit type and commodity, for the selected company.

The initial report that appears will list all audits in the system. For a report with specific parameters, select the choices that will provide you with the report that you wish to create, using the following boxes: "Audit Types", "Commodity Category", "Commodity Subcategories", "Commodities", "Location Category", "Location", and "Company". You must click in each box, and make a selection, in order to obtain a final report.

To obtain a report, click on "View Report". A multi-page report is generated, with entries listed by audit sections. You can scroll through the various pages using the arrows next to the page numbers.

You can export the report by selecting a format and then clicking on "Export" (see screen shots in Section A.).

Additional Site Information

More report information from Microsoft

Notice – we are aware of a glitch when the reports are exported to the Adobe PDF format. This sometimes results in a report with garbled words, similar to the one, below. This is related to the report engine built into the site's reporting system, and we are still working on a fix. In the meantime, if the strange characters appear on an exported PDF report, please close all browser windows, navigate back to the site, and try again. We apologize for any inconvenience that this might cause you.
